

2023

UTAH ONE HEALTH SYMPOSIUM

Urbanization in Utah

Health Impacts for People, Animals, and the Environment

November 3, 2023

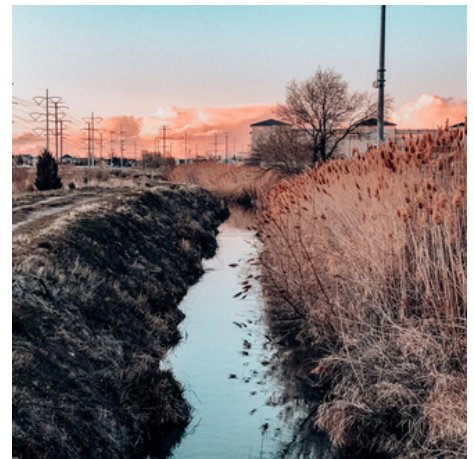

8 AM - 5 PM

KEYNOTE: Darin Parry, University of Utah

PLENARY: Mallory Bateman, Kem C. Gardner Policy Institute

- Urban-wildlife interface
- Zoonotic diseases
- Land use and insect vectors
- Preserving agricultural land
- Human impact on wildlife
- Rabies update
- Human populations in Utah
- **4 hrs CME for physicians**
- **6 hrs CE for veterinarians**
- Animal control CE

This year, our focus is to explore the dynamic changes at urban-wildlife interfaces. We'll look at human influence and land-use change as they affect **risk of emerging diseases**. We will consider humans' connection to the land, and some of the factors that drive urbanization.

Rabies titer testing
