

Agenda
UHIP-GC Antimicrobial Stewardship (AS) Subcommittee
3/7/2023 @ 12:00-1:00

Mission:

Protect the residents of Utah from multiple-drug resistant infections through optimizing antimicrobial prescribing practices and improving patient outcomes in Utah.

Vision:

The State of Utah strives to lead the national efforts to eliminate antimicrobial-resistant infections.

Goal:

Expand antimicrobial stewardship through collaboration with healthcare facilities to create and implement robust antimicrobial stewardship programs and improve infection control practices throughout the state of Utah.

***This meeting will be recorded for note taking purposes. Meeting minutes are publicly available, confidential information will be de-identified and is not to be shared outside this meeting.**

Bio:

Stephanie May, PharmD, BCIDP

Dr. May joined Intermountain Health as an Infectious Diseases and Antimicrobial Stewardship Pharmacist in 2020. She has led efforts to grow and formalize antimicrobial stewardship outreach throughout the Intermountain West region. Prior to this role, she completed two years of post-graduate training in Columbia, South Carolina, including a PGY-2 Residency in Infectious Diseases Pharmacy with an emphasis on rural health.

John Veillette, PharmD, BCIDP

Dr. Veillette started Intermountain Health's Infectious Diseases Telehealth program with Dr. Todd Vento in 2016, implementing new antimicrobial stewardship programs and improving access to ID services across the system. The program has expanded to provide ID consult and stewardship support for 20 communities and rural areas. Prior to joining

Intermountain, he completed a PGY-1 residency at the Cleveland VA Medical Center, and two years of ID Fellowship training at Loma Linda University Medical Center.

Carly Parry, Ph.D., M.S.W

Carly Parry, Ph.D., M.S.W., is a NORC vice president with over 20 years of expertise in the translation of evidence-based programs into practice. Parry led implementation and training for the nationally recognized Care Transitions Program™. She also led work in cancer care delivery at the National Cancer Institute, closed gaps in care delivery at Kaiser Permanente, and, at the Patient-Centered Outcomes Research Center's (PCORI), headed AHRQ/PCORI Learning Health Systems and workforce development programs. Parry has served as a technical expert informing AHRQ's Development of the Learning Health System Researcher Core Competencies, as an expert for the National Academy of Medicine's Roundtable on Value and Science-Driven Health Care, Best Practice Innovation Collaborative: Patients on the Healthcare Team, and a thought leader for cancer, chronic illness, and transitional care initiatives.
