

Infection Prevention and Control Program (IPCP) ALF Annual Infection Control Risk Assess Tool - Part A

INFECTION EVENT	PROBABILITY OF OCCURRENCE				LEVEL OF HARM FROM EVENT				IMPACT ON CARE				READINESS TO PREVENT			RISK LEVEL
	(How likely is this to occur?)				(What would be the most likely?)				(Will new treatments or care be needed by residents?)				(Are processes and resources in place to address this need?)			(Scores of 8 or greater are considered the highest priority for improvement efforts.)
Score	High	Med.	Low	None	High	Med.	Low	None	High	Med.	Low	None	Poor	Fair	Good	
	3	2	1	0	3	2	1	0	3	2	1	0	3	2	1
