

Childhood Lead Risk Questionnaire

Instructions:

Check 'Yes', 'No', or 'Don't Know' on each question below. This questionnaire should be administered to children from **6 to 72 months of age** at well-child visits.

Testing Recommendations/Requirements:

- Blood lead testing is **recommended** on all children at **1 and 2 years** of age and up to 72 months if never been tested.
- All children enrolled in Medicaid are **required** to be tested at ages 1 and 2 and up to 72 months if not previously tested. All children entering Head Start are **required** to be tested.
- All children should be tested when there is a "Yes" or "Don't Know" response on any question below.**

Child's First Name _____ Last Name _____ Age _____

Birthdate (MM/DD/YY) _____ Zip code _____ Questionnaire date _____

No.	Question	YES	NO	DON'T KNOW
1	Is this child eligible for or enrolled in Medicaid, WIC, or Head Start ?			
2	Is this child a refugee, immigrant or adoptee from a foreign country?			
3	Have you ever been told this child has a high blood lead level or do they have a sibling or playmate that has had a high blood lead level?			
4	Does this child live in or regularly visit a home or facility built before 1978 ?			
5	In the past year, has this child been exposed to repairs, repainting or renovation of a home or regularly visited facility built before 1978 ?			
6	Does this child reside in or regularly visit a High-Risk Zip Code ? See attached list.			
7	Has this child been exposed to lead from certain items such as cosmetics, candies, spices, jewelry, folk medicines, home remedies or glazed pottery that have been imported from a foreign country such as Mexico, Central or South America, China, India, or Pakistan?			
8	Does this child frequently try to eat or mouth non-food items?			
9	Does this child live with someone who has a job or hobby that may involve lead such as jewelry making, plumbing, furniture refinishing, working with lead solder or stained glass, reloading or casting bullets, target practice, hunting, fishing, building renovation or repair, automobile batteries, radiators, or bridge construction.			
10	Has this child ever lived near a factory or operation where lead may have been present or used (for example a mining/milling operation, a smelter, a paint, ammunition or battery factory, or an oil refinery)?			
11	Does this child eat hunted game meat that may have been shot by lead bullets?
