

How to register for the learning management system

1. Visit <https://utah.publichealthcloud.com>
2. Click on Register. Each individual staff member needs to create a unique account.
3. Fill in the required fields as indicated by the *asterisk.*

Please complete the following form to register. If you have already registered, sign in now.

Our LMS requires that everyone – including people who have taken trainings in the past – establish themselves in the system. This includes completing demographic data that is compiled only for reporting purposes and not associated with individual users. Once you have registered in the LMS, the next time you log in with your user ID and password, subsequent event registrations will be abbreviated and event specific.
